Our Focus on Accessibility

Accessibility means equal access to all riders.

Cabconnect has been working with agencies, healthcare facilities, and brokers to deliver solutions for over 11 years servicing riders like:

- Seniors
- Disabled
- Dialysis patients
- Low income
- Students

Always ahead of the curve

1. Cabconnect has over 120 transportation fleets servicing 70,000 drivers.
2. Cabconnect has over 11 years involvement in accessible programs in both small and large cities across the United States

San Francisco

Chicago

New York

Washington D.C.

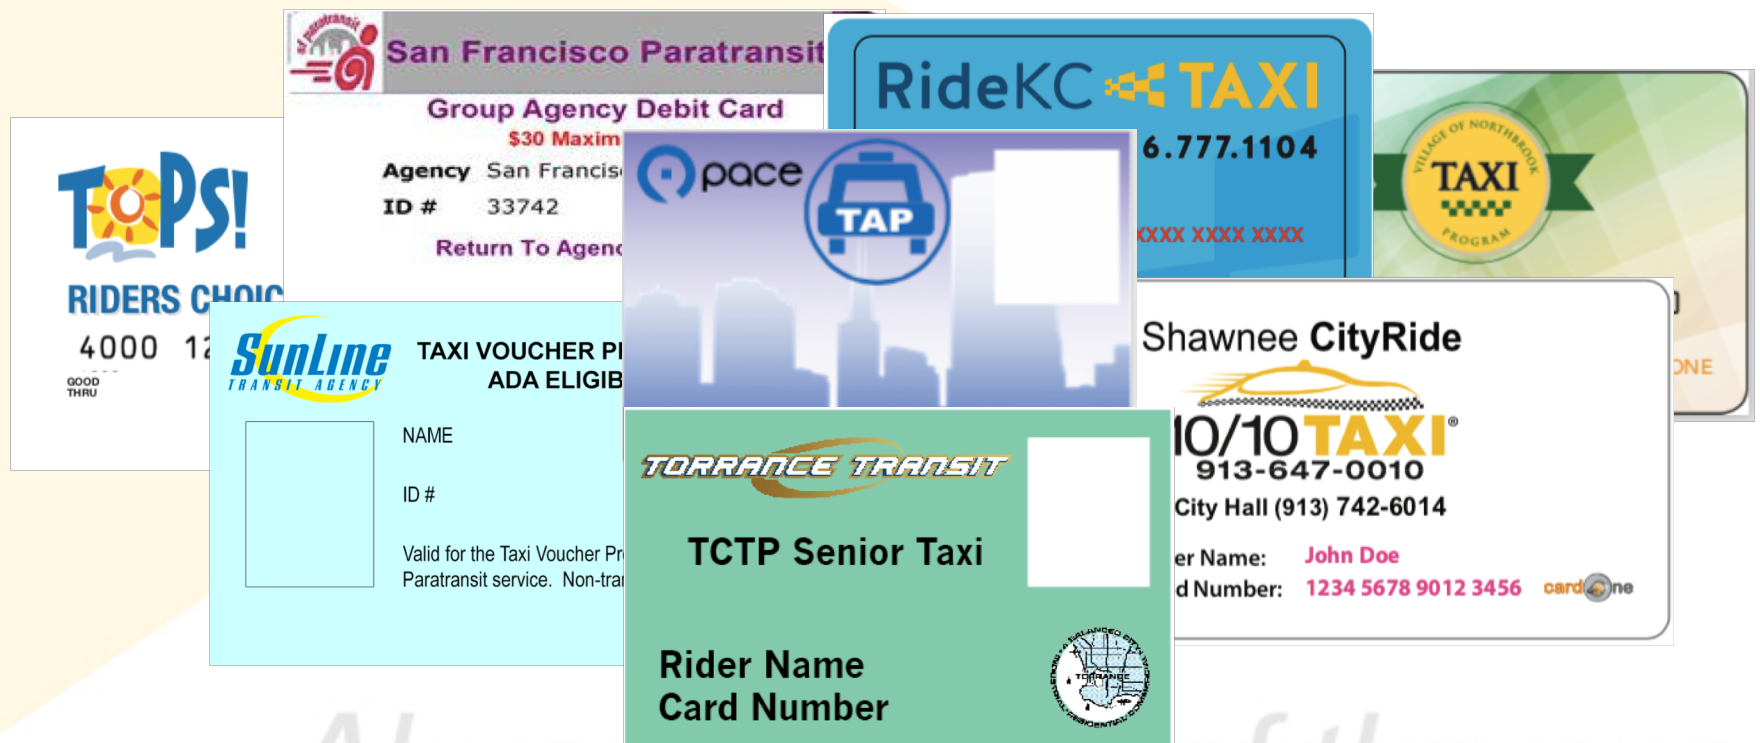

3. These transportation fleets need a modern platform to service these contracts
4. These contracts will provide the needed demand for transportation companies

Always ahead of the curve

Clear Leader in the Field

To date, we have processed over 12,000,000+ accessible transactions totaling over a quarter of a billion dollars.

Always ahead of the curve

Special Transportation Programs

- Cabconnect has been involved in paratransit, NEMT, senior and Dial-a-Ride (DART), and disadvantaged programs in many different cities, large and small.
- 1. Modernize the payment
- 2. Data management
- 3. Enrollment and eligibility
- 4. Pricing, scheduling, routing and ride sharing

Always ahead of the curve

Silo Programs

Service Limitations

- Eligibility constraints
- No central call center
- Need to call in advance (usually 24 hours)
- Designed to provide coverage and not to maximize ridership

Funding the Program

- Each service program have different funding models
- This creates different pricing models
- Affect payment models to drivers
- Affect profitability to the fleet and/or broker

Always ahead of the curve

Flywheel

Get instant ETAs

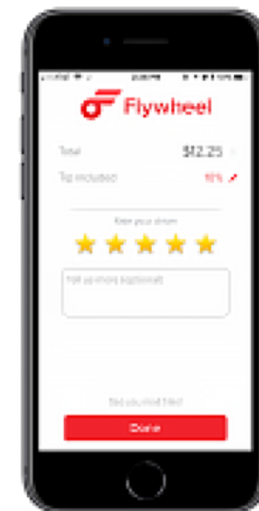

**Request a cab
with one tap**

**Know your cab is
on the way**

**Get notified
of cab arrival**

Our Vision

Make transportation easy and accessible

- Unify the fragmented industry
 - Standardize access to all vehicle types
 - Standardize payment process
- Simplify the scheduling process
- Streamline the billing and reconciliation process

Always ahead of the curve

Thank you!
